

Prove your mastery with the right credential.

Certified Management Accountant (CMA) Certification Exam Prep

CMAAs earn 28% more in the U.S. than non certified professionals.

Demonstrate your mastery of financial planning, analysis, and control by earning the Certified Management Accountant (CMA) certification through the Institute of Management Accountants (IMA). CMA holders are valuable to any business due to their expertise in numbers and strategic planning. Whether you want to enhance the value you bring to your current position, or expand your career potential, the CMA will help you set the standard for professional excellence.

Davenport University offers two courses designed to provide a thorough understanding of the accounting skills required to pass each of the CMA Certification Exams; CMA Part I and CMA Part II.

After completing this program, participants will be able to:

- Demonstrate your ability to effectively plan, forecast and determine budgets
- Measure performance, manage costs and monitor internal controls
- Understand financial statements, and decision analysis techniques
- Apply corporate finance strategies
- Improve investment decision-making
- Earn the Certified Management Accountant (CMA) certification through the IMA
