

Prepare for the state of Michigan Certified Nurse Assistant (CNA) exam.

Certified Nurse Assistant (CNA) Program

Studying to become a CNA takes hard work and perseverance, but this hard work pays off. Each day presents an opportunity to make a difference in someone's life.

Certified Nurse Assistants (CNAs) are important members of the healthcare team who provide patient care for those who need minimal assistance to those who are totally dependent. They not only provide physical care for patients, but also emotional and spiritual support - truly making a difference in the lives of patients and families.

Through Davenport University's Certified Nurse Assistant (CNA) Program you will receive hands-on training from experienced professionals; expand your job knowledge, skills and confidence to begin a rewarding healthcare career.

This fast-paced, program provides classroom instruction, hands-on practice in a lab, and real-world clinical experience. Participants who successfully complete the program are eligible to take the State of Michigan examination to become a Certified Nurse Assistant (CNA).

After completing this program, you will be able to:

- Provide basic nursing and personal care for patients and residents
- Assist patients and residents in attaining and maintaining functional independence
- Effectively communicate and interact with clients, families, and other health team members
- Demonstrate an understanding of client's emotional, social, and physical needs through sensitive interactions and behaviors
- Display an attitude of understanding of client's rights
- Demonstrate observational and documentation skills needed in the assessment of client's health and well being
