Project Management Professional (PMP)® Certification

Project Management Professional (PMP)® certification – renowned as the global gold standard. Salaries and career opportunities for PMPs show that employers recognize the value delivered by trained practitioners.

When you earn Project Management Professional (PMP)® certification through the Project Management Institute (PMI), you will position yourself for the best and most lucrative job opportunities. No matter what industry you choose to work in, certification will be an asset as you move forward in your career.

This intensive 7-week course prepares participants for the PMP® certification exam. Learn the Project Management Body of Knowledge, (PMBOK® Guide), as well as tools and techniques required to pass the PMP® exam. This is a PMI® Authorized PMP® Exam Prep Course; therefore we use PMI® course materials and practice questions.

After completing this program, participants will be able to:

• Demonstrate a thorough understanding of proven, practical body of project management knowledge and skills that you need to demonstrate project management mastery on the job

• Recognize the critical terms and concepts within the project management framework

• Avoid making costly mistakes and increase your competitive edge in the project management profession

• Challenge the new Project Management Professional (PMP)® Certification Exam
