Use your specialized skills to guard against cyber invasion. With several high-profile companies making headlines because of information security breaches, demand for experts to help organizations keep their data secure is increasing. Careers offer a median salary of $88,590 (onetonline.org), and you'll take the lead in creating and implementing company-wide information security policies and procedures. You'll train and guide personnel to watch for threats and assess vulnerabilities. And you'll help detect intrusion with a team that's prepared to respond quickly if a breach takes place. If you have an eye for detail as well as an interest in intrigue, this degree is for you!

**Why DU?**

- Cyber defense competitions that allow you to demonstrate the skills employers seek on a national level.
- One of only five NSA, DOD and DHS-Designated Centers of Academic Excellence for Information Assurance in Michigan. There are specific scholarship and government career opportunities because of this designation.
- Student Cyber Defense team won 1st place at Michigan Collegiate Cyber Defense Competition (CCDC).
- Professors with real-world experience and industry ties, which means unique learning, internship and job opportunities.
- Specialized training in a growing field that will lead to a well-compensated career.

**Davenport University**

- We are a private, non-profit university preparing students for a career.
- We award $15 million in scholarships each year.
- We keep a low student-to-faculty ratio.
- We offer 11 campuses across Michigan.
- We specialize in flexible online or on-campus classes days and evenings.
- We are nationally respected for our curriculum and faculty.

**College of Technology**

Our curriculum is ahead of the curve. We research what’s new, what’s critical and what’s emerging. We add a strong business foundation to give you the edge you need to succeed in your tech career. Find your future with Davenport's College of Technology.
